

## **FISCAL NOTE**

### **SB 286 - HB 235**

March 28, 2005

**SUMMARY OF BILL:** Authorizes counties or municipalities, by resolution or ordinance, to prohibit the sale of alcoholic beverages and beer within 2,000 feet of a drug or alcohol rehabilitation facility, measured building to building.

#### **ESTIMATED FISCAL IMPACT:**

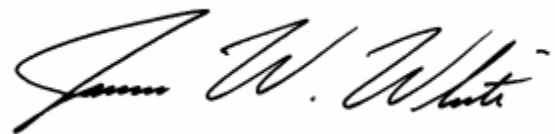

**Other Fiscal Impact - To the extent new business activity and incremental sales of beer and alcoholic beverages would have been significant without the passage of this bill, there would be significant foregone state and local government revenues, derived from the forgone sale of beer and alcoholic beverages, resulting from the enactment of this bill. Estimating a precise amount of forgone revenues for state and local governments is difficult. However, such forgone amounts are estimated to exceed \$50,000 and \$10,000 respectively.**

#### Assumptions:

- This bill does not apply to locations where beer or alcohol permits have already been issued.
- The impact of this bill is dependent upon the level of new business activity and incremental sales of beer and alcoholic beverages that would occur in the future and within 2,000 feet of a drug or alcohol rehabilitation facility given this bill is not enacted.
- To the extent new business activity and incremental sales would have been significant, there would be significant forgone state and local revenues derived from the forgone sale of beer and alcoholic beverages.
- Estimating a precise amount of forgone revenues for state and local governments due to the enactment of this bill is difficult. However, such forgone amounts are estimated to exceed \$50,000 and \$10,000 respectively.

#### **CERTIFICATION:**

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.
